SYSTEC SENTINEL

FROM THE DESK OF LARRY BOGGS

Greetings to everyone from SysTec Services and the manufacturers we represent. As we charge into fall, it is a time to reflect on the year that is passing, and passing so quickly. Every season is a time of change, and change is something that most of us are very resistant to, but is inevitable in our lives. How we handle it often is the factor that determines our future success or failure. Unfortunately our success of the past is just that, past, and does not necessarily determine that we will have future success.

Therefore, our hope at SysTec is that we can manage change and make it work as an asset, rather than a liability. We are currently working on how we can modify our daily practices to better serve our customers, and become more efficient in this process to benefit all of us.

As part of changing, we will be providing a monthly newsletter. I hope the information that we include in these newsletters is useful to you, and lets you know more about who we are and what we are about.

Thanks for your continued business,

Larry

CHICAGO FAUCETS HAS IMPROVED LEAD TIMES

On September 4, 2007, Chicago launched the **CF Now!** Program. Products included in this program will ship in five (5) business days. The list of products currently on the program is provided as a PDF attachment. In the future, additional items will be added to the **CF Now!** List.

The **CF Now!** Program applies to non-restricted orders only. Restricted orders are “ship complete”, “not before”, or “hold

for release” requests from customers.

All other faucets and fittings are still on a 15 business day lead time. All parts are on a five (5) business day lead time. Remember it only takes one (1) day for the product to arrive once shipped from Chicago Faucets.

HAWS PRODUCT UPDATE

Haws Corporation has made some changes to their product offering. They have discontinued items from the Emergency Equipment and the Drinking Fountains Lines. These changes are effective immediately. Please see the attached PDF file for a list of the discontinued model numbers as well as the replacement model numbers if applicable.

JOHN SMITHA

QUOTATIONS/OUTSIDE SALES

John came to SysTec in 1998. He is our full-time Quote Man and part-time outside salesman. He's also the inside sales staff's 'go to man' when a question arises that only years of experience can answer.

John has been in the plumbing industry for 40 years. He began working as a General Manager for a plumbing contractor. He then ventured into the rep business starting as the Delta Faucets Rep. In the early 80's he went to work for Johnson-Davidson, a well respected Rep Agency and seven years later he opened Shadco. Here he co-owned and operated the 13 line rep agency for 10 years.

FEATURED MANUFACTURER

PROSET SYSTEMS, INC.

ProSet Systems, Inc. was the first company to test a fire stop device at Underwriters Laboratories in May 1982 making ProSet one of the oldest and most experienced in the fire stop industry. In addition to being fire rated, ProSet "Penetrators" provide for pipe expansion and contraction, waterproofs, smoke proofs and reduces pipe noise. ProSet Systems out perform any metallic or non-metallic sleeving which makes it perfect for job specification.

ProSet also manufactures the innovative "Trap Guard" an elastomeric flexible pvc material that will prevent the backup of water and sewer gas while still allowing water to flow through the floor drain. Request a catalog today or visit them at www.prosetsystems.com.

GEORGE FISCHER VALVE CLEARANCE

George Fischer is posting online the overstock and phased-out valve products. Product part numbers, pricing, descriptions, and number of units will be provided on the website. The clearance items will consist of several different sizes of the Type H20 Valve, Type 355 COLORO True Union Ball Valve, and Type 346 True Union Ball Valve. All items are available while supplies last. Items purchased are non-cancelable and non-returnable.

Check out their home page at www.gfpiping.com for the clearance sale posting, available soon!

WELCOME ROCKFORD SANITARY SYSTEMS!

SysTec Services is excited to announce we are the new representatives for **Rockford Sanitary Systems**. We will be representing them in Indiana and Southern Ohio. Rockford Sanitary Systems manufacturers Separators in more than 26 varieties and in over 200 sizes. Engineered and custom built Separators are also available. Request a catalog or visit them at www.rkfdseparators.com.

ANVIL PIPE FITTERS HANDBOOKS

We have just received a new supply of the Anvil Pipe Fitters Handbooks. Those interested in receiving one should email Marty at martynoel@systecservices.com. Please include your shipping address and quantity needed.

If you know of anyone who would benefit from our Monthly Newsletter or would like to be removed from our list, please email cindylayman@systecservices.com.
